RÖSTA

When many people do not vote, democracy becomes weaker. Gothenburg and Western Sweden have large differences in voter turnout.

Sweden has had universal right to vote for 100 years. Use your vote to help shape society.

Vote for a better society for yourself and your family. You vote anonymously. No one can see how you voted.

**Your vote is important
and makes a difference!**

Project RÖSTA is a non-partisan voting initiative by ABF Väst. Its purpose is to strengthen democracy in the municipalities where ABF Väst operates by increasing participation and awareness about the 2026 election. The project was previously carried out in 2018 and 2022.

HOW DEMOCRACY WORKS IN SWEDEN

Sweden is a representative democracy. This means people choose politicians in free elections. We vote for parties and representatives who make decisions at the national, regional and municipal levels.

How it works:

- We vote for parties to sit in Parliament.
- A party needs more than 4% of the votes to enter Parliament.
- The parties with the most votes can form a government.
- The government leads the country and chooses ministers.
- Ministers are responsible for different areas, such as education and healthcare.
- They are also responsible for government agencies, such as Swedish Public Employment Service and The Swedish Migration Agency.
- We vote every four years in national, regional and municipal elections.

Vote early!

- You can vote early from 26 August.
- You can vote early anywhere in Sweden.
